Special Award – Most Innovative Application - Microsoft European RAD Awards 2003

Ducont's Mobile Payments application – *mDirham* – was awarded the Special Award - Most Innovative Application at the fourth Microsoft European Retail Application Developer (RAD) Awards held in Paris in April 2003. *mDirham* (or Mobile Dirham) is an innovative, bilingual (Arabic and English) payments solution that promotes mobile commerce by empowering customers to pay for goods and services using wireless and hand-held devices.

Finalist - GSM Association Awards 2003

Ducont's *E-Police System* emerged as a finalist under the category, 'Best Wireless Application or Service', for the Corporate Market Award at the GSM Association Awards 2003. These awards, considered the Oscars of the mobile industry, are the leading international wireless industry honour for achievement in technology and creativity.

Finalist - Microsoft Fusion 2002

Ducont became the first GCC company to be recognised as a finalist in the Best Collaborative Solution of the Year category at Microsoft Fusion 2002, the annual Microsoft Certified Partner Awards. Ducont's unique *E-Police System* beat a field of several larger companies to emerge as the best Microsoft-based collaborative solution from the Central and Eastern Europe, Middle East and Africa region for the year 2002.

Certificate of Commendation - Dubai Police - 2002

Dubai Police has commended Ducont for its unsurpassed standards of service and technical excellence. The appreciation came when Ducont developed the *E-Police System*, an effective, speedy, intuitive and secure system to manage on-the-job and internal communication among Dubai Police personnel.

Finalist - e-biz challenge@dubai 2000

Ducont was adjudged a finalist in the Dubai Internet City's prestigious e-biz challenge@dubai 2000. Its concept of a *Mobile Content, Transaction and M-Commerce Portal* was selected from among 1,385 nominations from 34 countries.
